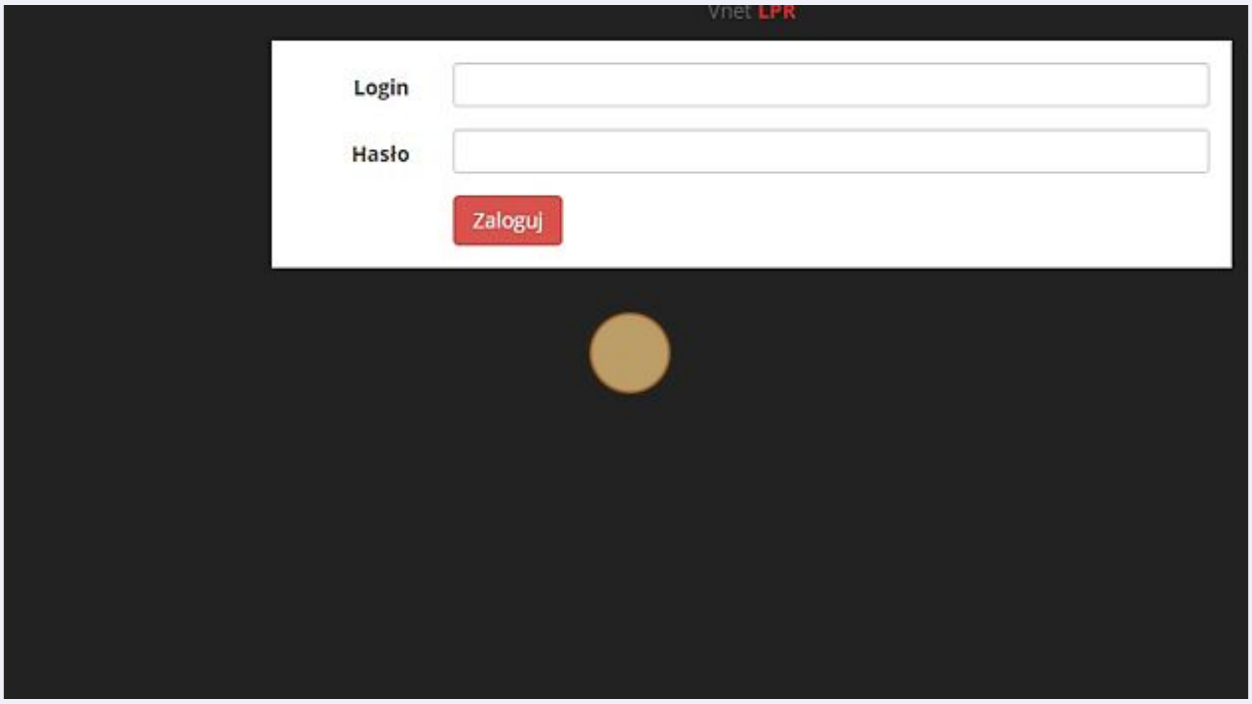
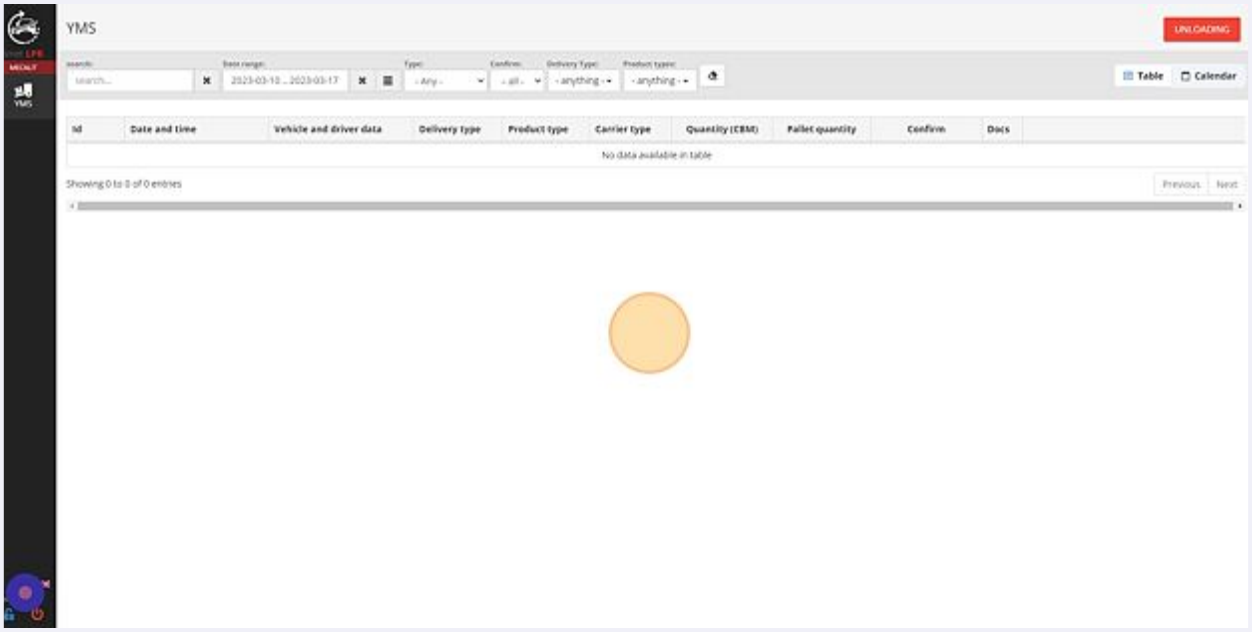
How to Log In to Vnet LPR System

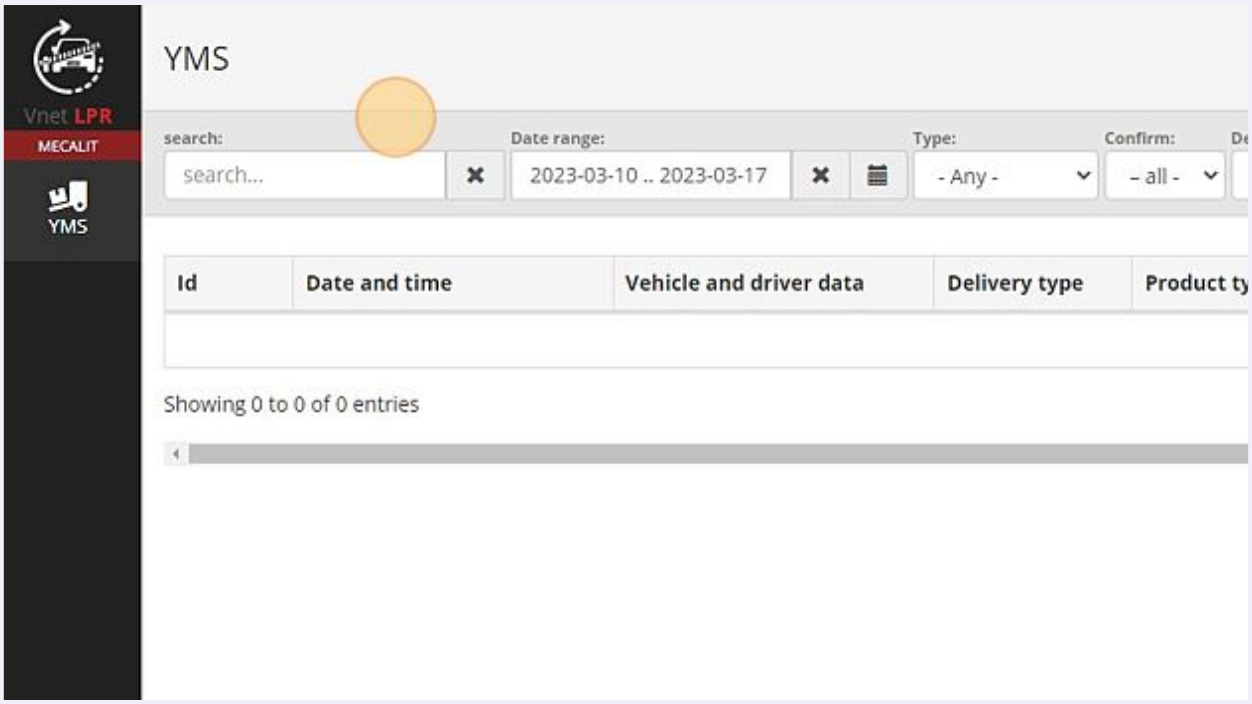
1 Enter the received login and password



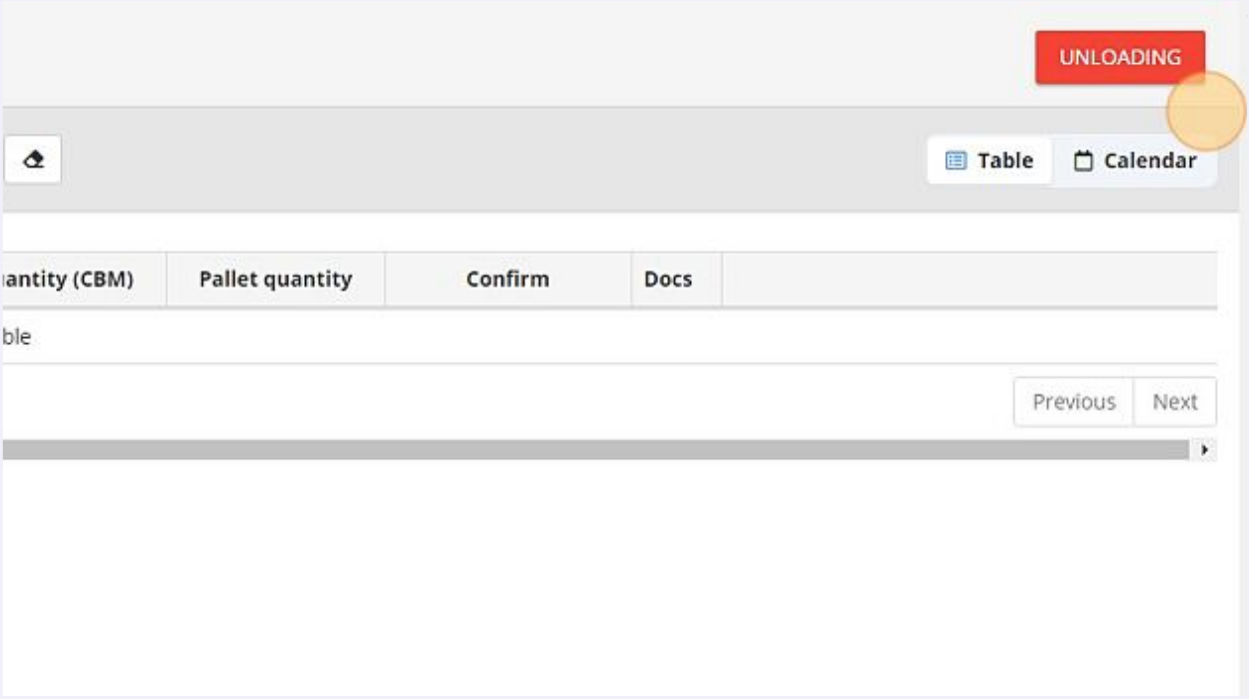
2 After correct logging in, the system transfers us to the list of all notifications



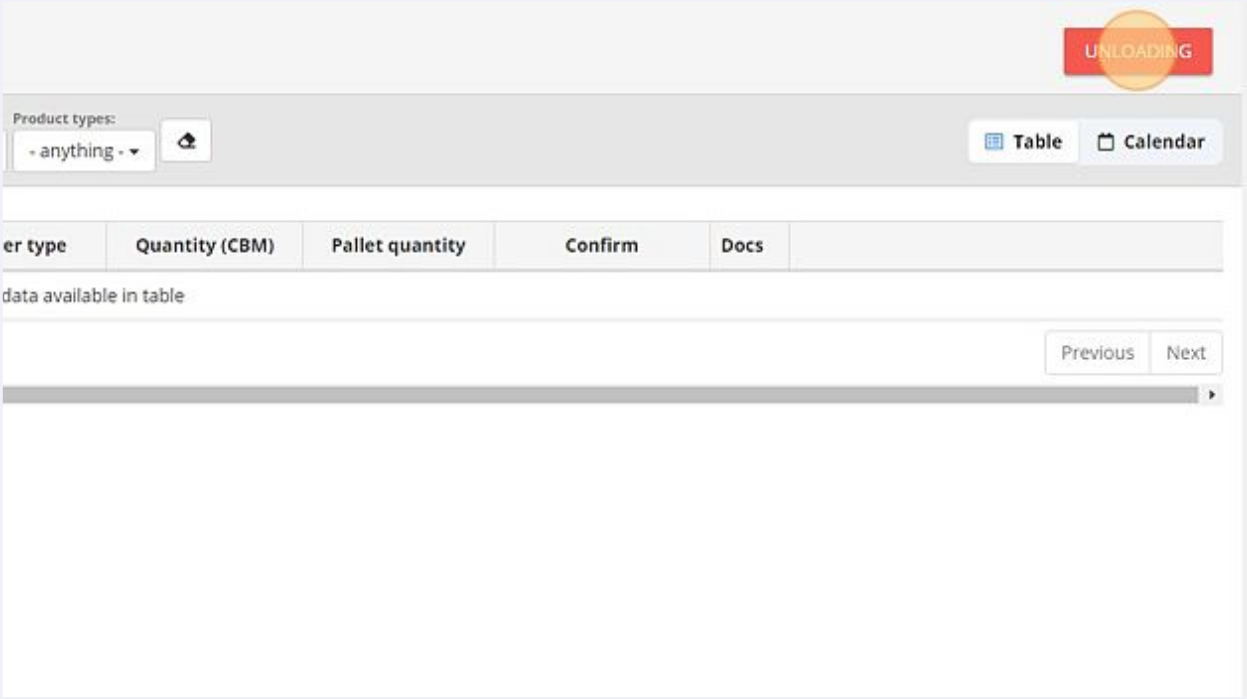
3 On the upper bar we have available filters for handling notifications



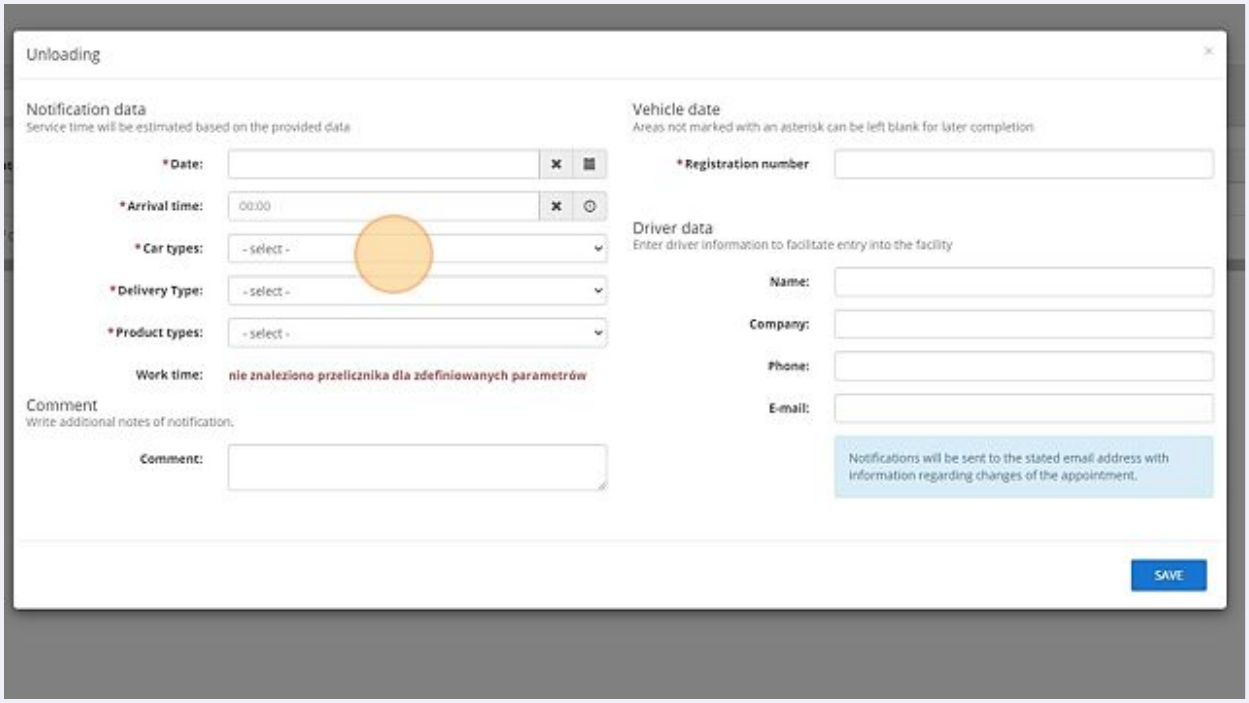
4 On the right side of the screen, you can switch between the table or calendar view



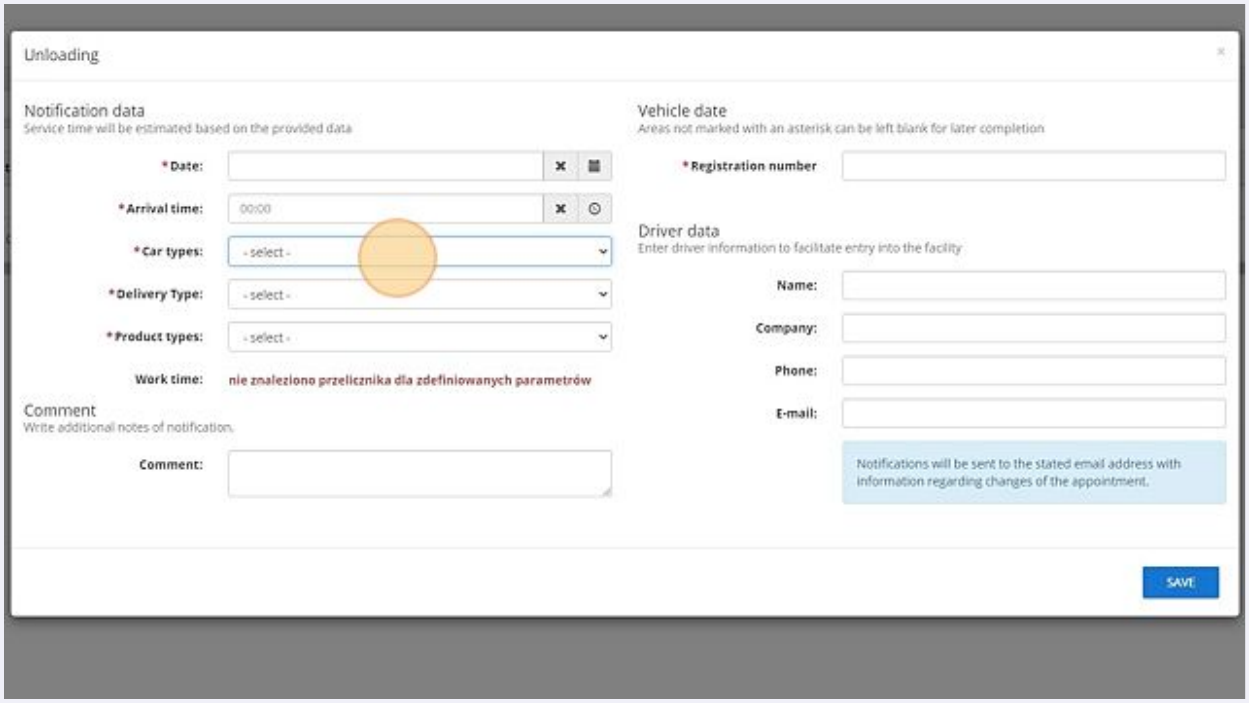
5 In order to add a new unloading, go to the top menu unloading



6 Complete all fields of the form by clicking save



7 Fields marked with a red asterisk are required fields



8 After correctly adding the notification, it will be added to the list with an annotation in the confirmation field as confirmed.
